GOLDenTaper Rotary Files

HIGH QUALITY GREAT PRICE

PRODUCT FEATURES
Comparable to ProTaper® and ProTaper Gold® files and technique.

The progressively tapered design of the files delivers significantly improved cutting efficiency and safety. GOLDenTaper convex triangular cross-section enhances the cutting action while decreasing rotational friction between the blade of the GOLDenTaper file and dentin.

Made from USA NiTi Wire

STERILE R

PACKING: 6pcs/blister-pack single size/assorted
SIZE: Shaping Files: #SX, #S1, # S2
FINISHING FILES: #F1 #F2, #F3, #F4, #F5
LENGTH: 21, 25, 31mm (SX only in 19mm)
TAPER: Variable taper

"The GOLDenTaper rotary files allow me to efficiently and comfortably perform endodontic procedures without the fear of file separation This is a high-quality file at a great price that I use regularly in my practice."

- Dr. Ara Nazarian

GoldenEndo K-Files

PRODUCT FEATURES
Stainless steel K-files.

PACKING: 6pcs/pack single size/assorted
SIZE: #6 -#80
LENGTH: 25mm

Paper Points

PRODUCT FEATURES
Compliment Pro-Taper type rotary files and are used with our GOLDenTaper files. Millimeter marked & one hand slide open lid.
Length: 30mm • 100 points/box

Gutta Percha

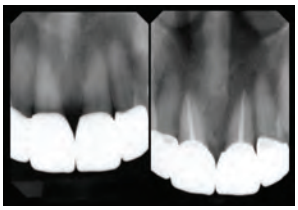
PRODUCT FEATURES
Compliment Pro-Taper type rotary files and are used with our GOLDenTaper files. Millimeter marked & one hand slide open lid.
Length: 28mm, 60 points per box.

Root Canal Sealer

PRODUCT FEATURES

Dia-ProSeal Root Canal Sealer is a two-component epoxy resin-based system:

- Excellent sealing ability: low shrinkage;
- High adhesion to gutta percha and dentin;
- Outstanding flow characteristics;
- High pH value: calcium hydroxide, antimicrobial activity;
- Fast & easy preparation;
- Low solubility;
- Highly biocompatible; and
- Excellent radiopacity & consistency.



NORDIN Fiber Posts - Glassix Plus

HIGH QUALITY GREAT PRICE

PRODUCT FEATURES

The Glassix Plus Fiber Post system is the latest generation of highly radiopaque & light transmitting fiber posts on the market today. Fiber posts are anatomically shaped to fit the root canal (cylindro-conical) with an easy to follow color coded (white, yellow, red and blue) system for easy identification and mechanical retention. Comes in 4 different sizes. The indication is for corono-radicular reconstructions. Beyond the clinical benefits, the Glassix-Plus product cost is a **fraction of the cost of market leaders.**

NORDIN Titanium Posts - Mecodont

HIGH QUALITY GREAT PRICE

PRODUCT FEATURES

- Passive parallel-sided post with flat head for direct post/core build-ups in one appointment;
- Ideal for multi-rooted post/core build ups; and
- Efficient and smooth cutting burs.

*****Mecodont drills cut better based on studies**

NORDIN Titanium Metal Pins

HIGH QUALITY GREAT PRICE

PRODUCT FEATURES

Nordin® Titanium Retention Pins are machined out of a solid rod of **non- corrosive, premium pure titanium** with the same precision smooth cut thread as a Swiss-made watch, giving the pins **maximum retention**. They are not merely a threaded wire pushed into a shaft, but are machined out of a solid rod of premium pure titanium, making them much better than any other titanium pins on the market **at a fraction of the cost of market leaders.**

NORDIN Threaded Titanium Posts - Ancorex

PRODUCT FEATURES

Ancorex by Nordin® threaded titanium metal post brand contains **99.6% pure titanium.** Titanium is light weight, extremely strong, and has no chemical reaction or corrosion. As with most dental implants made from titanium, titanium is proven to be very tissue compatible. The Ancorex brand in packaged in a smart and organized compartment box for a **price that is a fraction of other threaded post brands.**

- Cylindrical & Conical. 2/3 of the length is cylindrical for the best retention and 1/3 of the length is 3° conical to avoid stress in the apex area of the root.
- Thread design to give mechanical retention in the dentin when screwed in, or to give retention in the cement if the post is cemented.
- The slot around the head is designed to provide mechanical retention for buildup material composite or amalgam.
- Evacuation slot to allow excess cement to escape which might otherwise cause pressure in the apex.
- Cemented or Screwed Use
- 20 convenient sizes

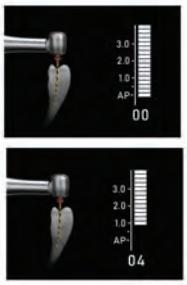
Endo Motor & Apex Locator

360°
Rotatable Contra-Angle

Adjustable reciprocating angle (10°; adjustment range: 20°-340°); Accurate rotating angle reduces risk of instrument fracture and enables higher preparing efficacy.

Front Center of Gravity

Built-In Apex Locator



6:1 Contra-Angle

2000mAh Lithium battery
Wireless Charging

Strong power, together with accurate and stable torque output, helps to realize efficient root canal preparation.

Super mini head with diameter of 8mm and a height of 9.7mm brings clear vision during operation.

Woodpecker
Super Mini Head & Slim Neck

Normal Head & Neck

The Woodpecker Ai-Endo Motor is the strongest, most precise, smoothest and smartest brushless endo motor on the market today. The strong power, together with accurate and stable torque output results in efficient root canal preparation.

The smooth rotation results in less noise and more comfort for your patients.

The Ai Model is also smart and has a built in Apex Locator. The integrated length determination makes endodontic treatment safer and more efficient. The display allows for real time location of the file in the canal and automatically stops, or reverses, as soon as the file reaches the apical stop to prevent perforation. Auto start and stop functions are also available to enable the motor to automatically start while the file is in the canal and stops when it is out of the canal.

"I have clinically evaluated many endo motors over the years and the Woodpecker Ai is by far the best endo motor I have ever used. The Ai endo motor is my preferred choice in my practice."

- Dr. Ara Nazarian

The Woodpecker Woodpex III Plus is the latest generation of apex locators from Woodpecker with precise accuracy (98% accuracy) as a result of its upgraded algorithm that make it more stable and enables stronger anti-interference abilities. This is the most advanced apex locator available today.

Available in Gold and Rose Gold colors.
